

JZ-M1
Activated Alumina
Carry potassium permanganate

Description:

This product use special activated alumina carrier, it has two times adsorption capacity than similar products. It use strong oxidizing of potassium permanganate, reducing the harmful gas from the air oxidation decomposition, so as to achieve the purpose of cleaning the air.

Applications:

gas adsorbent, adsorption of sulfur dioxide, chlorine, NX, hydrogen sulfide and other gases.

Specification:

Properties	Unit	JZ-M1
Diameter	mm	2-3/3-5
Potassium Permanganate	%	4-8
L.O.I.	≤%	25
Bulk Density	≤g/ml	1.1
Crushing Strength	≥N/Pc	130
Water Adsorption	≥ %	14

Standard Package:

30 kg/carton

Attention:

The product as desiccant cannot be exposed in the open air and should be stored in dry condition with air-proof package.
